

CURSE

You said it would all be fun and games

You said that it wouldn't turn to dust

But still you couldn't help me with my shame

And now it's all gone and ruined for us

This hell is all I can see

Your pain transferred to me

This hell is all I feel and taste

Your love transformed to waste

Now I'm fading to a ghost in a shell

Flickers seen in the dark that light the way are gone

Your arms disappearing around my waist

I can feel your passion no more

This hell is all I can see

Your pain transferred to me

This hell is all I feel and taste

Your love transformed to waste

Chorus:

Now watch our ship moving away

With our dreams tied to the mast

Submerged in water,

In your eyes I see no more

-No more you-

Pre chorus:

This hell is all I feel and taste

Your love transformed to waste

Chorus:

Now watch our ship moving away

Our undying curse laughing at us

Submerged in water,

In your eyes I see no more

Now watch our ship moving away

With our dreams tied to the mast

Submerged in water

In your eyes I see no more

No more you!
