

## ANOTHER LIFE

They say you gotta work harder at school  
But they don't know what I'm going through  
Or who I come home to,  
And how deep I feel my blues

Again you look at my shoes  
Counting the words I curse  
And just what good will it do  
If I ain't got nothing to lose

And I stare through the windows every day  
Wishing I was somewhere far away  
Ignoring the noise behind  
Trying to keep it all inside

But one of these days it's gonna spill  
And believe me it won't be a thrill

Mummy hasn't called in years  
I just burried dad  
But couldn't bring any tears  
And looking at your perfect life  
Could I borrow it only for a minute in time

I feel their words branding my skin again  
Looking at the poppy petals flying away  
Trying to ignore this sorry fate I got  
You know I'm just looking for a fight tonight

I wanna be carried away  
From this place  
From my life (x3)

Do you know what it's like  
Safe and warm in the storm  
I wanna give it a try  
Another life without lies  
And I stare through the dirty windows now  
I'm leaving everything far behind  
I'm finally movin', heading on  
And if they ask you, just tell them I'm gone...

Cause I've reached the point  
Where I can't cry anymore

And this pain inside  
I just can't feel no more

I wanna be carried away  
From this place  
From my life (3)  
I'm gonna be carried away  
From this place  
From my life...  
I'm gonna be....
